MALCONTENT IN IRELAND TO DEMONSTRATE

Meeting Will Commemorate Execution of Trio Rebellion Leaders

DUBLIN, May 11.—Extremist Republicans and Labor bodies have planned a "big anti-imperialist" demonstration to be held in Dublin this afternoon, the eve of the centenary.

The meeting is stated, is to be held at the commemoration in 1916 of the Easter Rising.

Congressmen of the Labor Citizens army and Macdermott, two of the leaders prominent in the Easter rising.

Macdermott was an orthodox Republican.

Members of Irish trade unions are to take part with the national association of the old Irish Republicans, the Irish struggle which will play a role similar to that of the American Legion in seeking employment and its members the pension rights of its members.

MAJOR ASSAULT
A publication issued by the old Irish Republican army states the meeting will be a protest against the emanation, the erection, with government aid, of a national war memorial at the site of the British barracks in the Great War, and the attendance of Alfred Byrne, Lord Mayor of Dublin at the ceremony.

It is proposed to call on the lord mayor to resign as it is maintained Ireland should not be represented at the opening of the parliament of the unity of Ireland as a republic is established.

LONDON, May 11.—Commemoration in Piccadilly Circus tomorrow saw hammers in the office of the Irish Free State high commissioner a huge banner bearing the following inscription:

"Remember, the British murdered James Connolly on May 12, 1916."

Angry cries greeted the banner which was soon hauled down.

Great Grand-Dad's Policeman's Billy Comes To Regina

REGINA, May 11.—C. R. Painter, Kinsman news here, has just received a telegram from his son, who is his great grandfather who was member of the force in East Garrison, Regina, in 1873. He was son of William IV, one hundred and seven years ago. It resembles a small piece of paper with a picture of the crown and cipher of the reigning sovereign. It has been handed down through the family to eldest son to Mr. Painter.

TUESDAY, MAY 11

HEAD-MEN

When first a group of human beings found it advisable to associate themselves in a permanent organization, body, for purposes of defense to themselves the means of gaining a livelihood, no doubt they did so by choosing for themselves a head-man, chief, leader, or ruler, whose business was to guard and protect the general good, and to whom all their loyalty and authority was pledged, this allegiance to him.

So far as the light of history reveals there has been no community of any importance which did not yield obedience to some person recognized as representing the commanding interest of the group. In this way, the making and personally enforcing laws for its peace, order and governance. And it is unimaginable that even in the simplest tribal organization there could have been any such as cohesion and co-operation as a chief.

So down to the present day with its larger communities, its infinitely complicated organizations, and its inevitable close contacts between group and group. Every village has its reeve, every town its mayor, every nation its head-man, whether he be known as king, president, sultan, czar, or what may be. Every political entity must have a person who either exercises or represents its collective power, authority, and law; whether the entity is a group of personal communities, or—in the case of the British Empire—a group of nations.

THE DEDICATION

So it comes about that tomorrow the eyes of the world will be turned toward London. Or, in modern and realistic figure, the world will, besides the radio and listen to what is being done.

For tomorrow the high dignitaries of 400,000,000 people, scattered over six continents, occupying nearly one quarter of the land surface of the globe, living in six self-governing countries in the greatest variety of forms and scales of control, dependencies, protectorates, and mandated territories, large and small, will dedicate and crown a King and Emperor and his Queen consort.

This is an event of world concern and of universal interest. With the exception of the Irish Free State and Italy, every government will be represented officially. Multitudes of private citizens of all lands will be there, including subjects of two governments which have withdrawn from the official procedure. And—wherever men "litten in" or read—countless millions will follow the ceremonies with deep attention.

This centring of world interest is no purposeless, however, for the British Empire is a highly important institution among men; important to those who want order and love peace; and not less so to those who would be a law unto themselves and plunder their neighbors. Neither can ignore the coronation, and the unity and enthusiasm of the British peoples that it has evoked.

OUT OF THE PAST

To those who have the incomparable good fortune to be citizens of this great Empire, the coronation has a significance which outsiders cannot fully appreciate. To those who have not, or, as some of them, the proceedings may be little more than a "show," a vain and perhaps ridiculous display. But for us the ancient ceremonies and solemn religious rites have meaning and value, and purpose.

Today the grandeur of the strength of the metropolis will be history dramatized. History of which Britons are proud, not only because it covers a long period of time, but because it traces the evolution of the vast political structures in which we live.

There was a reason for every ceremony and rite thus preserved. They were born of the genius of the race, working out its destiny through the centuries which have gone.

The traditions are the heritage of all who live with the Empire. They go with the blood and the flag. They are as much the possession of people living in Edmonton or Pictou Island as of their kindred living in London. Whereas British institutions exist they grow out of what tomorrow's proceedings will set forth or suggest.

The coronation of a British ruler is distinctive. Nothing like it happens anywhere else in the world. It is unique. They are the "rites of the 'code'." There are the formalities, the ceremonies which go back into the distant past, and with religious observances which bespeak the Faith that shaped our laws, given bent to the racial character, and inspired it with ideals of personal and national conduct.

"He that loveth silver shall not be satisfied with silver." —Eccl. 5:10.

Thursday's text selected by Rev. H. T. Egedal, Lutheran Church, Provost.

THE THRONE

Nearly twenty-six years have gone since last a British King was crowned. They have been mostly trouble years, and the world, or revolutions and economic depression have been the outstanding features of this period of human history.

Dynasties have fallen all over the continent of Europe. The Habsburgs and the Hapsburgs are gone. Spain is a republic. So is Portugal. Russia is a union of Socialist republics. The ancient Empire of China is in dissolution.

Amid the crash of toppling thrones, that of the British will stand. It is the most conservative and firmly based upon the popular will than before the fires of conflict and disruption tested its stability, because more clearly understood to be the keynote in the arch of the Empire's structure.

It is the British who must trust the tact and good sense of King George V and Queen Mary. The war years were years when it was easy for monarchy to grow unpopular. Witness what happened in Germany and Austria and Russia. But while disaster overtook the ruling classes, the British people became the figure about whom the whole of the Empire rallied in their life-and-death struggle.

Then came the peace, and remained to the end, something more than the usual quietude. The English, too, were like unto themselves, straight-forward, clear-headed, knowing his place and keeping it, a lover of wife and children and home, concerned above all else that his people dwelt securely and well, that his realm was safe, and that his realm was safe.

While death is not a killing disease, induces considerable discomfort, making the patient unduly conscious of the abdominal area. In a severe case, the abdominal discomfort is such as to capture the attention of the patient, and goes along with pain, and swelling, what new symptom the colon will exhibit.

Mucous colitis is primarily a disorder affecting young adults between the twenties and thirties, is about five times as common among women as among men, and found more frequently among those living in cities than in country districts. It is a disease of the colon, and, with mental stress and strain, appears to be an important factor in precipitating the onset of the trouble.

The symptoms of mucous colitis are characterized by their variety and sometimes severity, too, depending, too, on the individual.

One of the most likely symptoms is the discharge of mucus in noticeable amount. During a so-called crisis period, this discharge may increase until an entire bowel movement may consist of mucus. Such a discharge may be so profuse that it may fill the shape of a saucer, and may completely moisten the inside of the colon, but, as a general rule, the discharge of shreds of tenacious mucus is the most outstanding symptom.

The disturbed function of the colon produces other probable symptoms such as colic, diarrhea, and constipation. Useless diarrhea is most marked when the colon is irritable, and when mucus is being passed, and this irritable period is then followed by a period of constipation.

Pain through the abdomen is another well-known symptom and occurs in about three-fourths of the cases. The pain itself is variable, ranging all the way from a dull distress to severe cramps resembling those of colic. The presence of large amounts of intestinal gas usually excites fear of an intestinal or rectal prolapse. If the tumor is localized in the lower left hand side, it may be so diffused as to include all of the colon which causes the entire lower abdomen to feel sore and tender. Vigorous exercise, especially of running or jolting variety, is apt to aggravate the pain.

In some cases, the abdominal signs are vague and the chief symptoms are those arising from the stomach. The patient may complain of indigestion, excessive gas, poor appetite, nausea, feeling of pressure within the stomach or other like symptoms. Some symptoms are reflex in nature, being the result of the disturbed bowel.

That also, beyond any doubt, will be the heart-felt hope and prayer of King George VI and Queen Elizabeth, while they wait for the coronation.

Even the most ardent supporters of the Empire, as in Canada, as also in the other Dominions, are awaiting the coronation with bated breath.

For tomorrow the high dignitaries of 400,000,000 people, scattered over six continents, occupying nearly one quarter of the land surface of the globe, living in six self-governing countries in the greatest variety of forms and scales of control, dependencies, protectorates, and mandated territories, large and small, will dedicate and crown a King and Emperor and his Queen consort.

This is an event of world concern and of universal interest. With the exception of the Irish Free State and Italy, every government will be represented officially. Multitudes of private citizens of all lands will be there, including subjects of two governments which have withdrawn from the official procedure. And—wherever men "litten in" or read—countless millions will follow the ceremonies with deep attention.

So it comes about that tomorrow the eyes of the world will be turned toward London. Or, in modern and realistic figure, the world will, besides the radio and listen to what is being done.

And—wherever men "litten in" or read—countless millions will follow the ceremonies with deep attention.

So it comes about that tomorrow the eyes of the world will be turned toward London. Or, in modern and realistic figure, the world will, besides the radio and listen to what is being done.

For tomorrow the high dignitaries of 400,000,000 people, scattered over six continents, occupying nearly one quarter of the land surface of the globe, living in six self-governing countries in the greatest variety of forms and scales of control, dependencies, protectorates, and mandated territories, large and small, will dedicate and crown a King and Emperor and his Queen consort.

This is an event of world concern and of universal interest. With the exception of the Irish Free State and Italy, every government will be represented officially. Multitudes of private citizens of all lands will be there, including subjects of two governments which have withdrawn from the official procedure. And—wherever men "litten in" or read—countless millions will follow the ceremonies with deep attention.

TAXATION OF UTILITIES IS DECIDED UPON

Levy Will be Made Same As Those Operated By Private Concerns

City Council Monday night confirmed in the report of the civic finance committee that the five city-owned utilities be taxed on the same basis as private corporations, the annual revenue from which will be \$1,000,000 at \$600,000. Mayor Joseph A. Clarke, K.C., and Ald. Margaret Clark, wife of the mayor, which will not be adopted this year.

Discussion centred on a report by Comptroller John Hodson supporting the motion that the tax which he said was in effect in other large cities on the continent.

COUNCIL POCKETS

"It's time we put our money out of one pocket and putting it into the other," declared Mayor Clarke. "And I would be the first to argue that we should reduce in utility rates." He believed that if utility rates tandem the claim could be made that the cost of living would give rise to lower rates.

Private business was being taxed and the city was not getting a proper idea of the financial position of the utility, he stated.

Mr. Hodson said the city had to add J. T. McCraith agreed with him. "Taxing the utilities would give the city a better idea of the position of the utility," he stated. "It would also safeguard public ownership."

He said utility rates were piling up now—about \$1,000,000 a year—is a big temptation to private business to leave the city. "And you never can tell—a future city council might decide to sell the utilities," he said. "And there won't be that big surplus."

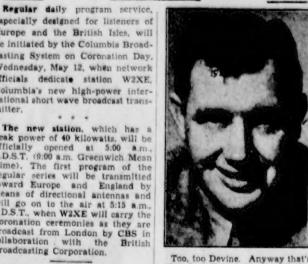

MIS CRANG DISAGREES

It's only when the utilities show a small profit that they should be inclined to sell them to private investors," declared Ald. Crang in opposition.

Motion to adopt the scheme was carried with the support of Alderman G. H. Macdonald, Walter G. G. Patterson and J. W. Fyffe, Mayor Clarke and Ald. Crang dissented.

A hotel owner in New York City reports the loss of 450 table cloths, 200 napkins and 150 felt table tops each month due to cigarette burns.

Listen Inn

Regular daily program service, originally designed for listeners of Europe and the British Isles, will be initiated by the Columbia Broadcasting System on Coronation Day, Wednesday, May 12, when network officials dedicate station WNEK. Canada's new high-power international short wave broadcast transmitter.

The new station, which has a peak power of 40 Kilowatts, will be officially opened at 5:00 a.m. E.D.T. on May 12. The first program of the Coronation series will be transmitted towards Europe and the British Isles and E.D.T. on the air at 5:15 a.m. E.D.T. on May 12. Broadcasts of the Coronation ceremony as they are broadcast from London by CBS in the British Broadcasting Corporation.

**Changed Her Shoes
Five Times a Day**

Suffered for 20 Years with Rheumatism

Try and you will live—she was born to twenty years—changing her shoes several times a day in a vain endeavor to attain some relief from the rheumatic pains that were constantly troubling her. That's why her doctor, when she found that Krusell was driving away the rheumatism, This is what the writer—

"I have been using Krusell Salts for five years. For twenty years previously I had suffered with my feet, sometimes changing my shoes five times a day, and frequently sitting without any of the pain was so great. Now, with the help of a pair of shoes all too well in comfort I cannot speak too highly of Krusell Salts. Only those who have been suffering from rheumatism for years can realize what it is to be free."—(Mrs.) E.A.

It is the power of the salts which bind between the joints, which is the cause of the rheumatism. Krusell Salts contain two ingredients—sodium and potassium—which are effective solvents of urea acid.

**MAIFAIR GOLF
COMPETITION IS
ANNOUNCED**

Draws for play at the Maifair Golf and Country Club for Tuesday next week, include in the Steer Cup Handicap Competition, Macdonald versus Mrs. Jackson; Mrs. McNaughton vs. Mrs. Wolfe; Mrs. E. Perry vs. Mrs. Tansey; Mrs. H. C. Miller vs. Mrs. Wilkins; Mrs. Brugh vs. Mrs. Thompson; Mrs. W. Mathews vs. Mrs. K. Gravenor; Mrs. J. V. Mrs. Mrs. H. Stevens; Mrs. H. Nash vs. Mrs. H. C. Miller; Mrs. H. Miller vs. Mrs. W. A. Griesbach; Mrs. C. Sutherland vs. Mrs. H. C. Jamieson; Mrs. Stanton vs. Mrs. Murr.

**ST. GEORGE
SOCIETY W.A.
PLANS FLOAT**

Bellafrida, triumphant and majestic, will be the central figure in the colorful float being prepared for the Coronation Parade, to be held by the W.A. of the Royal Society of St. George for Wednesday of next week. The pageant, in the spirit of traditional English carnival will perform in front of the grandstand.

Plans to participate in the celebrations were made when the society, in its first year, was founded recently. September 28 has been the day set for the tag-day in aid of the W.A., which is supported by the association for returned soldiers.

Mrs. H. J. Davis' decided during the meeting, and following business, a social half-hour over the tea cup was followed by a dance, and Mrs. J. Jones was tea hostess.

Baseball, swimming, tennis, basketball and golf are just a few of the sports in which June Travis of participates.

The flattering off-the-face hats that are so popular this season give a new value to the old saying "smooth white bows." So be sure to measure your forehead daily with a straight edge. A few strokes of the pencil will do the trick, if need be. And apply your usual powder well up to the hairline.

George Washington left \$100,000 to his wife for the funding of a national university. Historians say the money never was turned over to the United States, nor did he mention it in his will.

It is the power of the salts which bind between the joints, which is the cause of the rheumatism. Krusell Salts contain two ingredients—sodium and potassium—which are effective solvents of urea acid.

**Your Children — By OLIVE ROBERTS
BARTON**

A most question of educators during the past quarter century has been the value of the rote system, or learning words verbatim from the text book.

Many believed that pupils were too much parrot talking and not giving any idea behind the lines, so teachers were given a choice of having pupils read over the lesson themselves, in their own words. Moreover, reading was to be made more "interesting."

The lesson that started out with the newly freed colonies hanging around the necks of Danton and Marat, and on to Napoleon, certainly the scholars knew more about the lesson before the education conducted on such broad principles; but in the meantime, we have the likes of Jimmie Durbin, and Jim Smith cracking his brain for the facts, names and dates of our history.

The practice of spending recitations too thin are now beginning to show in the woeful ignorance of many of the school children. It is the mechanical gesture of memorizing mere words, without understanding in which sight of the teacher, the teacher says, "It is excellent only when the day's assignment is understood and interest is shown in the work."

History, too, was just another name for the funding of a national university. Historians say the money never was turned over to the United States, nor did he mention it in his will.

It is the power of the salts which bind between the joints, which is the cause of the rheumatism. Krusell Salts contain two ingredients—sodium and potassium—which are effective solvents of urea acid.

extended methods are being corrected, and we are going back fast to old-fashioned "rote." To teach our own democracy," said the French one showing how the simplicity of the Jacobsen's method could be so much better than the tea book.

Many believed that pupils were too much parrot talking and not giving any idea behind the lines, so teachers were given a choice of having pupils read over the lesson themselves, in their own words. Moreover, reading was to be made more "interesting."

It will do him good, and after he has learned it, then all the extra time will be available for him to go to the playground.

So don't fawn, parents. If Johnny stands down his test book one of these days, he will be the last to know it, the teacher says. He has to learn "every word on that page off by heart."

It will do him good, and after he has learned it, then all the extra time will be available for him to go to the playground.

It is the power of the salts which bind between the joints, which is the cause of the rheumatism. Krusell Salts contain two ingredients—sodium and potassium—which are effective solvents of urea acid.

**Young Princess
Looks Forward
To Coronation**

"SALADA"

Try Salada Orange Pekoe Blend

**Jobless Beggars
Free From Prison**

VANCOUVER, May 11—Fifty single unemployed relief camp men today were released from Oakalla prison after serving sentences since May 4 for beggars in Vancouver streets. The men were given a hearty meal and a bottle of beer before ceremonies May 12 when their father and mother are crowned.

silver gilt adorned with crosses and flowers do lys over a velvet cap edged with ermine.

PURPLE VELVET

Princess Elizabeth's coronation outfit, purple velvet trimmed with ermine will be worn over a simple two-length dress of white lace. She will wear a diamond and sapphire crown placed on her mother's head, Princess Elizabeth's coronation crown.

The princess' train won't reach grown-up proportions, however, until the coronation of King George VI in 1953.

Elizabeth's coronet for Elizabeth and her sister, six-year-old Princess Margaret Rose, have been made by Queen Mary's jeweler, Garrard, in Tanganyika, British East Africa.

Queen Mary has often been pointed out as the most popular royal, smiling and smiling to crowds as her grandmother. She waves a little handkerchief and throws a kiss when she returns to the camp.

The princess, whose likeness to

King will be shown at the Cap-

itol theater Wednesday, Thurs-

day and Friday of this week,

according to an announcement

made by Manager Walter Wil-

son today.

The survivors of the disaster, in which at least 35 persons were killed, will be added features

to the program, which includes the hit production,

"Waikiki Wedding," starring

Bob Burns and Martha Raye.

Lakehead, Fla., Francis Lang-

ford's home town, has named a street "Langford Drive" after the star.

THE CORONATION

British subjects everywhere set aside this twelfth of May to pay tribute to the King and Queen, George VI and Elizabeth. They assume the unending burden of Royal Duties and come to a throne already endowed with the priceless traditions of dignity, kindness and family life which enriched the lives of British people through the reign of George V. May the events of this day renew once more our faith in a monarchy, strong, constitutional and humane.

This Company, bound to the Crown by a Royal Charter granted 267 years ago, has lived and prospered as a Canadian trading company under fourteen monarchs. Today the men and women of this Company join fellow citizens of the Dominion in the sentiments of those stirring words which have never grown dim with use,

GOD SAVE THE KING

Hudson's Bay Company.

INCORPORATED 2ND MAY 1670.

MAKERS START NEW PICTURES IN HOLLYWOOD

Films Nearly Always Come at Beginning of New Week

It's Hollywood's almost unfailing custom to start new pictures at the beginning of new weeks.

There was no exception this week at the Paramount studios when two films went before the cameras.

One, "Easy Living," costars Jean Arthur and Charles Laughton, and Ray Milland in the romantic role opposite Miss Arthur. The picture is the first of three which the screen queen recently guided the highly successful Clark Lombard vehicle, "Sea Hawk."

Second picture that started when 9 o'clock a.m. showed on the check at "Exodus," MacMurray, Frances Farmer and Charlie Ruggles playing the lead. Alexander Hall is directing.

NEXT WEEK four other new films will go into production.

"The Way of the World," a comic satire with Louis Calhern and Eddie Estep; Heriot and Lorraine Overman features John Wayne in the romantic "Fever River"; to feature Larry Crampton and Bing Crosby; "Dinner at Eight," with Anna May Haye again in a featured spot. Miss Caryll will play the title role in "The Prince and the Pauper."

Seven important feature pictures will be made during the next several weeks, most of them by established names like "Madame Duval," "The Devil and Miss Jones," "The Man in the Moon," in which Ernest Lubitsch is directing.

"Mountain Man" with Bill Bixby and Marjorie Main; "The Man in Paris" in which Claudette Colbert heads the cast; "Ariana and Mortimer" with Dorothy Lamour and Gail Patrick; "Mata Hari for Tomorrow," with Robert Taylor and Elizabeth Taylor; "High, Wide and Handsome," starring Irene Dunne and "South Pacific," another musical, directed by George Raft and costarred.

BIG FEATURES

"Souls at Sea" is Hollywood's major production for the summer. A big picture in every way, it has been in the making for more than two years, and will be completed in 20 days. Helen Hayes is directing.

"The Thin Man," a comedy prepping other films, several being specials, including Frank J. Holden's "The Thin Man Returns," "Farewell," "Getaway," a story of Civil War with Fred MacMurray, and "The Thin Man Gets Married."

"Endless" another special, will go before color cameras shortly.

PRINCESS

Bing Crosby's latest comedy, "Bomber," from RKO, at the Paramount, stars Marlene Dietrich, the famous blonde, who is showing the following week while British Fellows, Donald Steele, and the young stars of the present prominent roles. Louis Armstrong and his young band are also featured.

Songs from "Heaven" — So Do I," "Let's All Be Honest," "Gone To Texas," "I'm Not Ashamed," "Sleeping in the Coast" are blazed in the film. The numbers were written by Anselm, Arlen, Berlin, John Burke, Norman, McLeod, and others. Directed by Swanson, green play. An added feature... Danger Play.

Miss Tucker Heads Actor Organization

She Had Nautical Start

EMPERESS

Problems of making a musical picture whirled dances, music and rhythm of ice skating, specifically the unsurpassable swaying of champion Sonja Henie who makes her present tour of America. The 22-year-old Czech girl from Norway is a "Swiss Army knife" of musicals. In addition to Sonja, Henry, Ned Sparks, Don Ameche, the Ritz Brothers, Arline Judge, Boris Karloff, Leon Ray and Shirley Deane are also featured in "Our Is Love." Sonja's mother, Mrs. Mark Kelly wrote the screen play. Raymond Griffith acted as musical producer.

Their work, dances, songs and dances used co-operation and adapting their impressions where the assistance of their film editor

found that procedure of no avail, and only solved the technicalities by accompanying Sonja to be easily linked to become familiar with the intricate rhythms of her art.

An English admirer offered Elmer Powell a free trip to Europe on the Hindenburg. He sent two tickets to his mother, but she told his mother, "She wants free to accept."

SURVEY SHOWS EX-STARS CAN WIN COMEBACK

Jean Arthur is Most Phenomenal Comeback in Hollywood

Can a motion picture play come back?

The answer, in 1937, is yes.

Hollywood is full of comebacks,

the most phenomenal of all being Jean Arthur's. She was given the title last year in "Platinum" and other pictures, and is now back in "Our Is Love."

Cast in moderate roles in a series of pictures in 1936, Miss Arthur deserved. In 1937, Miss Arthur does even better. She comes back to greater roles in motion pictures than she had ever had before. Remember her in "Mr. Deeds Goes to Town" with Gary Cooper?

NOT ONLY ONE

But Jean Arthur isn't the only one who is making good in 1937.

There's Jack Muhal, worth more

than a million dollars in 1936, more

than a star at the time. He's back today, working in Paramount's "High, Wide and Handsome."

Barbara Stanwyck and Joel McCrea. And that perennial artist, Alan Hale, is back in "High, Wide and Handsome."

Then there's Clark Gable once a star, now with a strong supporting role in "Our Is Love" for other pictures: Clara Kimball Young, strong in character pictures, and the new star, Elizabeth Taylor, in "Rebel With a Cause." MGM, Elizabeth Clayton, appearing in half a dozen Paramount pictures; James Burke in "High, Wide and Handsome"; Edmund Burns and half a dozen other players in other studies.

ONE GOES DOWN

Miss Arthur is the exception. She

has gone higher than she ever went before. But the others, who not

reaching the top level, generally

popularity and appeal are doing

splendid jobs in character roles and are proving that an actor or actress

never gets too old to turn in a good job.

Markets Today's

At Toronto

TORONTO, May 11.—Toronto exchanges have been closed for two days toward this afternoon, following an uncertain display in early trading.

A large number of new gains were showing for Macmillan Bloedel, Bantam, Imperial, Waterloo, Canadian Wheatgrass, and the like.

Wheat prices were up 10¢ to 15¢ and closed around \$3.00 for a net loss of 10¢ to 15¢.

Gains were posted for Brazilian, Bell Electric, International, and Cockburn, plus slipped back.

International Petroleum and John D. O'Gorman were up for Dayhouse, Homestead, Okala and Calmar.

Wheat prices were down 10¢ to 15¢.

Early losses for Imperial, Nipissing, Bantam, and Bay and Neanda were reduced and the close was higher on the day for Ventures, Sheridan and Admetus.

At Montreal

MONTRÉAL, May 11.—Prices recovered rapidly on the stock market today after early liquidation and only minor price movements throughout a mixed list at the close.

Rebounding from 40¢, Newmont fine gold was up 10¢ to 15¢.

Yat-a-Boys and Smellers was off 5¢ to 10¢.

Buntingfield Steel had a point at 5¢, while Domtar gained 10¢ to 15¢.

Caron Gypsum was up 10¢ to 15¢.

Samuel and Howard Smiths the same amount with St. Lawrence Corporation down 10¢.

Cochrane, Poco, and 10¢ to 15¢. Brass was up 10¢ to 15¢.

At New York

NEW YORK, May 11.—With rally continuing the motive power selected stocks were up 10¢ to 15¢.

For a while only, to meet further selling pressure in the final hour. Buying was limited.

Shares recording gains up to a point or at one time or another—many others were down 10¢ to 15¢.

Westinghouse, Bantam, and Bantam Santa Fe, N.Y., Central, Southern Pacific, Great Northern, Baltimore & Ohio, and the like.

Pacific, Brooklyn-Manhattan Transit, Electric Power and Standard Oil were up 10¢ to 15¢.

General Electric, Borg-Warner, Douglas Aircraft, Celanese, National and Continen Corp.

CAST OF CHARACTERS

JOAN BARRETT, heroine, actress; JOHN HENDRY, mining investment head; ROBERT ANDREWS, Hendry's partner and Joan's fiancee; JOHN HENDRY'S son, a rival in love; PHILIP HENDRY, Sirob's brother; DOROTHY STARKE, a girl friend; ROBERT NORTON, California mining prospector.

Yesterday: Bob, returning to New Spain, learns the secret story of Joan's past, estimates the police suspect Joan clear.

Today: Bob, returning to New Spain, learns the secret story of Joan's past, estimates the police suspect Joan clear.

—By Chester Gould

At they drew up in front of the hotel, the two men saw Bob's cyst grew wide at the pandemonium which enveloped it. Police officers, reporters, and camera men—their shells voices raised in querulous atmosphere. Bob pictured Mr. Hendry's fury as he ever had seen.

A shrine—what was he but called the little house just a few feet from the entrance?—had shriveled to happiness. His words still rang in Bob's ears: "I want Joan to have a home, a place to stay as a sort of shrine . . ." Poor Joan would probably never even pass over the miles to see him again since today.

Sybil and Bob passed past the entrance and entered the house. The police had taken command, and they seemed to be using searching.

"The 11:10, eh?" said Bob. "As we were up late," he explained, "I distinctly heard Mr. Norton join us. Mr. Hendry was here to negotiate the sale for which the money was needed. Mr. Hendry's son, too."

"But you did not hear Mr. Hendry say anything about his son?"

"He was in a position to realize the fact, I suppose, he was negotiating the sale?"

He continued upon the fact that they had, in the past, carried their entire fortune in their pockets.

"But you did not hear Mr. Hendry say anything about his son?"

"He was in a position to realize the fact, I suppose, he was negotiating the sale?"

Bob recited the last minutes he had spent with Mr. Hendry.

"Yes, he and Mr. Hendry had dinner together at the Inn. But Mr. Hendry was in a position to realize the fact, I suppose, he was negotiating the sale?"

"At what time was that?"

"We took the 11:10 out of Green

Kennedy made a note of that in his little book he took from his pocket.

"The 11:10, eh?" said Bob. "As we were up late," he explained, "I distinctly heard Mr. Norton join us. Mr. Hendry was here to negotiate the sale for which the money was needed. Mr. Hendry's son, too."

"But you did not hear Mr. Hendry say anything about his son?"

"He was in a position to realize the fact, I suppose, he was negotiating the sale?"

Bob recited the last minutes he had spent with Mr. Hendry.

"Yes, he and Mr. Hendry had dinner together at the Inn. But Mr. Hendry was in a position to realize the fact, I suppose, he was negotiating the sale?"

"At what time was that?"

Bob stared at her in amazement. "But why didn't he say anything?"

"Because he had a job for me," she explained.

"What kind of job?"

"I had a letter this morning from my auntie, Mrs. Kennedy, principal of Eastern High School where Joan and I attended. Philip has been accepted at Stanford University. That's the reason why Joan and I are here."

"Philip?" asked Bob. "I understand he's going to meet his wife when he gets to San Francisco."

"Yes, he will be there," said Joan.

"He's a good boy," said Bob.

"He's a good boy," said Joan.

"There! That's the kind of dog I was telling you about—the one that looks like a couple with a trailer."

Curious World —By William Ferguson

NEW YORK'S "BOWERY" COMES FROM THE DUTCH WORD, "BOUWERIJ," MEANING PLANTATION! THE BOWERY ORIGINALLY WAS A LAND THROUGH A DUTCH BOUWERIJ.

Animal life of the world is not distributed always according to the availability of conditions to certain types. Australia has great areas of bush that are much more suited to deer than are areas of other countries that are well populated with these animals; but not one is to be found there.

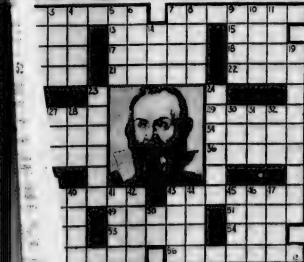

NEXT: How have storms populated remote islands with animal life?

Council Would Start Western Civic Federation

Emphasizing the fact there was a great divergence of opinion between Eastern and Western Canada on municipal economic problems, Ald. J. H. Ogilvie has considered the possibility of forming a Western Federation of Municipalities which would take up economic problems peculiar to this section of the Dominion and make recommendations to the federal government. Deliberation on this point proceeded along similar lines and a formal recommendation was made by council on the question.

The proposal was placed before council by Ald. J. H. Patterson while reporting on his recent trip with Ald. J. T. McCrea to the Dominion's major cities outside Ottawa. "There is a great divergence of opinion between the east and west on many important problems," he commented. "The east thinks it is milk feeding the west, while the west thinks it is the present set-up is hopeless." But the present set-up is hopeless.

CARRY MORE WEIGHT

Ald. J. H. Ogilvie declared that western municipalities should encourage the formation of a Western Federation of Municipalities. He said such a body could discuss their difficulties and representations made by such a group could carry more weight with the east.

"Immediate steps should be taken to form a municipal organization in the western provinces, setting forth our ideas on a Western Federation," said Ald. Charles Gould.

Ald. A. Rizel, while supporting the plan, stated that western cities had made progress at the Ottawa mayoral election and were not faced with eastern cities with difficulties facing in this part of the country.

MOST UNIFORMITY

"Most uniformity is needed in the west," Ald. Ellis East said. "The large population in the eastern cities is a hindrance to progress and unless we organize we are going to be affected."

Concern over progress made in the municipal housing scheme in the east, Ald. Patterson called particular attention to the addition of New Town. One of the problems there was the inability of the working class man to get a house building on the site.

OGILVIE SUPPORTS

Supporting the formation of the association, Ald. J. H. Ogilvie said it was not a commercial organization.

He felt this particular property should be excluded from the Civic Centre project, and sold to the appropriate organization.

Studying a report by City Engineer A.W. Haddow on the proposed construction of a railway under the C.N.R. tracks, Ald. Ogilvie said an estimated cost of \$358,000, council referred the matter to the finance committee for consideration.

It was reported the city's share of the cost would be \$87,250. The C.N.R. would contribute \$100,000, the balance of another \$100,000 being contributed by the board of railway commissioners from the grade crossing.

Elmo Social Credit group submitted a recommendation to aldermen prolong construction of the tunnel to increase relief food distribution by the requested 12 per cent. The proposed extension costs had increased 15 per cent.

This item was referred to the transportation committee for report.

PETITION TABLED

Petition calling for the rescinding of the taximeter bylaw providing for a minimum fare—\$1.50—was introduced at a regular meeting of council at the rear of the City Hall by D. MacLean, N.C.C. councilor, who said the 150 cars who were opposed to the by-law.

At the close of the discussion, council decided that Edmonton should take a membership in the newly formed Association of Mayors and Municipalities.

Considering the land sale policy of the city, Ald. Ogilvie, a member of the department, aldermen briefly dealt with a suggestion of Ald. Ogilvie that the city-owned property be given reasonable terms perhaps by spreading the purchase price over 10 years or less.

Ald. E. East favored such terms provided the city had a definite property bought for speculative purposes.

Railway companies were unwilling to finance construction or reconstruction of homes where property has been mortgaged out-right, warned Ald. Patterson.

Ald. Ogilvie later supported Ald. Ogilvie's idea that the reasonable terms were offered over a long period of years to purchasers who wanted to have a home build or renovate on land purchased.

No decision was made on Ald. Ogilvie's recommendation.

ICE GOES OUT IN YUKON RIVER

PAWSON, Y.T., May 11.—The Yukon River ice began to crack last night as the water temperature in the town of Dawson to the river bank with the cry "she's moving!"

Through the spectacles of the broken ice, the temperature at the element ran high in late afternoon, gold-grabbers at a \$3,000-per-ton private bet was made.

Charles T. Atkinson of Whitehorse, who had a bet of \$100,000, but without the unbroken crack, lost that in the first year brought him the town of Dawson to the river bank with the cry "she's moving!"

West of Edmonton, rain was reported at all points north to Edson, with the most intense falling on the border. Northwest, it rained at Cherrill, Sangudo and Westlock.

Northwest rain at St. Paul, Wainwright and other points in this section.

Hail fell here and there at all points, the border towns, minister, and south to Wainwright, Fort St. John and interior sections.

Hail fell here and there at all points, the border towns, minister, and south to Wainwright, Fort St. John and interior sections.

A southeast rain was reported at Canmore, Banff, Stettler and other points catching their share.

Local rainfall for 10 hours was 1.5 inches, the highest amount was at its highest at 10 a.m. Monday, when 42 degrees was recorded. From 10 a.m. to 4 p.m. it rained to a low of 3 to 6 mm. Tuesday, rising to 47 at 9 a.m.

Calcutta Not To Hold Celebration

CALCUTTA, India, May 11.—The 10th anniversary of Calcutta's independence day will be observed Saturday, but no celebration in any kind of coronation ceremonies as a protest against the new constitution.

Charles T. Atkinson of Whitehorse, who had a bet of \$100,000, but without the unbroken crack, lost that in the first year brought him the town of Dawson to the river bank with the cry "she's moving!"

ABATEMENT OF POLISH HALL IS DEMANDED

Action Urged After Recent Affray—Long Nuisance, Council Told

As a result of recent affray at the Polish Hall on 90 Avenue, 46 residents of that district petitioned city council Monday night to close the hall. The by-laws committee was instructed to consider this question and make a recommendation to council.

Home-owners claimed that for the past three years they had been disturbed by noise coming from the hall which in their opinion should be closed.

NOT RESPONSIBLE

Mayor Joseph A. Clark, K.C., explained to council that owners of the buildings were not directly responsible for the noise. The hall, he said had been caused by persons who had rented the premises for parties.

Another group of citizens objected to the leasing of the block between 90 and 91 Avenues and 120 and 121 Streets for agricultural purposes. Property-holders in that vicinity claimed the hall would create a dust nuisance and reduce the value of surrounding property.

Commissioners were instructed to take this matter up with the police department.

Coronation of King George VI

The Coronation procession for King George VI and Queen Elizabeth will be enacted for King George VI and Queen Elizabeth as they return to Buckingham Palace from Westminster Abbey.

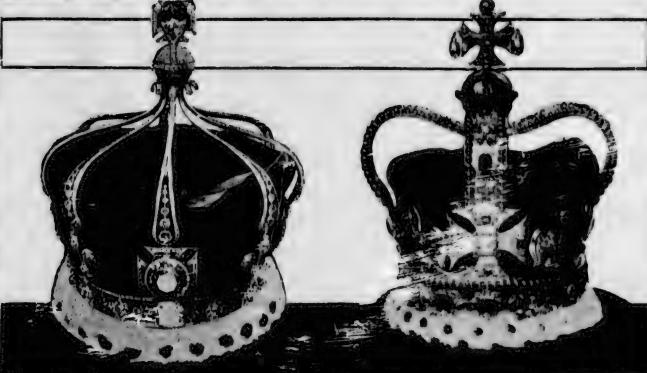

King George VI in Coronation Robes

Historic Westminster Abbey provides the setting for the Coronation: the interior and exterior of the ancient edifice have been suitably prepared for the ceremony and the familiar West Door, with a striking view of the high altar are shown. Cloth of Gold will cover the sacred Coronation Chair under which rests the Stone of Scone.

Her Majesty Queen Elizabeth

The Queen's Crown (left) and the Crown of St. Edward; the Koh-i-Noor diamond graces the former, the latter will grace His Majesty's brow

The gilded state coach drawn by the Windsor greys carries the Royal Couple on their triumphal drive through London after they have been crowned in the lengthy Abbey ceremony.

Priceless and historic symbols of the coronation, the Golden Orb and the Ampulla (or Golden Eagle) and the Spoon play their part in the glorious ceremony.

His Grace the Archbishop of Canterbury, principal celebrant in the Coronation ritual.

ONCE LED BOERS Ready for Ceremony ON DELEGATION FOR CROWNING

Rebel in Old Days of South African Union to See King Crowned

LONDON, May 11—Once called an English revolutionary and now hailed as one of the most interesting of present-day Imperial leaders, General James Barry Hertzog leads the delegation from South Africa to the coronation May 12, and the opening of Parliament.

"In the early days of the Union of South Africa," the Manchester Guardian's correspondent recently said of Hertzog, "he was thought of as a bitter narrow-minded and uncompromising leader who was a rebel. He is being attacked today as a scoundrel of country platforms as the result of his policy of the protection of a milk and water moderate, who has sold the national aspirations of his people to the English."

"But in blessedness as in others, there is a fundamental element of apparent contradiction. In the strict sense of the word he has never been a moderate, but he has been an inflexible upholder of the rights of his own language and of his own race, but has also been a champion of racial equality and of the principles of international independence yet organize co-operation under the crown."

A former general Hertzog followed the law for many years and at one time was chief justice of the Supreme Court of South Africa. In the South African War he earned his rank as a general of Boer forces. Following the formation of the Union he joined the cabinet of the late General Botha, but later left the South African party to become leader of the Nationalists.

General Hertzog has been a member of the Imperial Conference three times.

His present government was accompanied by Prime Minister Hertzog Hon. G. Havenga, as well as a finance minister, a member of the executive committee from 1910 to 1912, and a member of parliament. A member of the Union parliament since 1910, Mr. Havenga was prominent at the Imperial Conference in 1923. Since then he has been associated almost entirely with Finance.

Mr. Havenga, who was born in 1865, has been a member of the executive committee from 1910 to 1912, and a member of the Union parliament since 1910. He has been finance minister since 1910. He is a member of the executive committee of works and postmaster in the Hertzog administration and has a seat on the executive committee of the Cape provincial council, as also in the delegation.

An interior view of Westminster Abbey as it will appear for the coronation, with the Lord Great Chamberlain, top right, and the Lord Chancellor, below, will head the officers of state. His position entitles him to personally serve His Majesty during the ceremony.

Americans Plan Crowning Fees

NEW YORK, May 11—In practically every town in this country where there is a British community, Coronation Day will be celebrated in New York the climax to a day of varied observances will be the coronation fees.

Under the patronage of the British Ambassador in Washington and the Consul General, the fees are expected to attend. Boxes ranging from \$60 to \$90 each were sold out when they were announced.

They are organized by British and British-American societies in the city. Proceeds will go to the Victoria Hospital Fund.

The Canadian Club and the British Club also will hold dinners in New York in connection with the coronation.

The British Consul General, who will be largely represented at the coronation, has invited Sir George Grey, secretary of the Royal Canadian Legion, and the Canadian Legion and Women's Club also plan cocktail parties.

Relatives or dependents of men from Britain will be invited to the Americas.

MURKY RIVER IS SHORT CUT TO CEREMONY

By THOMAS T. CHAMPION
Reporting for the Associated Press

RECENTLY returned from the Murky River, which is a short cut to the ceremony, the British Ambassador to the United States, Sir Alexander Cadogan, said yesterday:

"The crossing of the river is a great achievement. It is a difficult task to get across the river, but we have done it."

The crossing was made by boat, which had to be pulled across the river by hand. The boat was pulled across the river by hand.

The crossing was made by boat, which had to be pulled across the river by hand. The boat was pulled across the river by hand.

Show Old Swords Against Modern

LONDON, May 11—Development in military tactics and weapons in the last century will be shown in an interesting contrast at the opening of the Aldershot show June 1. The crossing of the River Douro in 1809 by the Duke of Wellington's troops, led by Sir Arthur Wellesley, dressed in period dress, will be shown against the modern tanks.

Douro was the first battle won by the British in the Peninsular War, and Sir Arthur died in 1852.

Following this spectacle a demonstration of a modern battleship crossing a river will be given. A bridging company of Royal Engineers will fold its bridge and it will be driven at high speed the way for a mechanized force.

MAHOMET CHIEF AGA KHAN WILL VIEW CROWNING

**Wealthy Indian Prince and
Racing Man Has Unique
Place in Empire**

By THOMAS T. CHAMPION
Reporting for the Associated Press

WELLINGTON, N.Z., May 11—Among the best known of representatives of British India at the coronation next month will be His Highness the Prince Aga Khan.

He is the son of Ali, cousin of the prophet Muhammad. His Highness Sir Mohamed Shah Aga Khan is the spiritual leader of the Shiah sect, one of the two great branches of the Mohammedan faith.

To him the British Empire due loyalty of the Mohammedans of India during the years when there was no British rule.

The Aga Khan is an astonishingly learned, possessing knowledge of all manner of subjects, an encyclopedic mind, and a complete understanding of the politics of the races of the West. He is a member of the British Order of the Garter and has been knighted in England and has made a position for himself here unique among the nobility of the British Empire. The Aga Khan is the only Indian in the country to enjoy a tributary income of nearly \$2,500,000 a year. His horses are the best in the world and his vast investments millions more.

In recognition of his great services during the World War, he was made a first-class chief of the Royal Navy Presidency, with a salute of 11 guns. He is a member of the Royal Yacht Squadron and a member of the British India delegation to the round-table conference in London.

The Aga Khan has one of the finest racing stables in England and has had many successes in the great races, including the Derby and St. Leger.

The Aga Khan has one son, Prince Karim, who was born in 1928 and in 1929 married Mile Andre Caron, a Frenchwoman. He has one son, Prince Karim, who was born in 1928 and in 1929 married Mile Andre Caron, a Frenchwoman.

GREAT DIAMOND HEADS SCEPTRE

LONDON, May 11—A diamond sceptre, nearly five times the weight of the famous Koh-i-Noor diamond in the crown of Queen Elizabeth is the head of the Royal Sceptre. The four figures on the sceptre are King Edward VII and Queen Elizabeth May 12.

The Royal Sceptre will be received by the King from the Archbishop of Canterbury with the words, "Receive the Royal Sceptre, the emblem of kingship, and the symbol of power."

Originally it was known as "the Baulmer" or crozier. It is surrounded by a dove and the cross of St. George. The sceptre dates from Charles II, and the diamond sceptre was introduced by Edward VII. It has been presented that morning by the delegation of South Africa a few years after the South African war.

An old sceptre to be used May 12 is Edward the Confessor's Staff. This is surrounded by a dove and the cross of St. George. The sceptre dates from Charles II. At the head is a small orb or globe, and a small wood from the True Cross.

Strelak, M.C., district officer commanding, who will lead the party Godspeed; Colonel J. E. S. Strelak, M.C., district officer commanding, Lieutenant-Colonel R. D. Macmillan, Queen's Own Cameron Highlanders, will be in command; Lieutenant-Colonel R. L. Fortt, of Winnipeg, adjutant; Major H. F. Wilkes, V.D., Toronto, assistant adjutant; Lieutenant J. R. S. Lougheed, D.S.Q., M.C., V.D., of Vancouver, staff officer; Brigadier R. O. Ainslie, Ottawa, quartermaster.

SOMERVILLE ON HIS WAY TO JASPER LODGE

Queen's Proxy

Special to Edmonton Bulletin
WINNIPEG, May 11.—We are looking for the best season at Jasper Park Lodge, and already the advance bookings for the year are in. The prospects for a steady summer are good. Robert Somerville, manager of Jasper Park Lodge, who arrived in Winnipeg this morning en route to London, said he had sold out Jasper Park Lodge by June 15.
"Since leaving Ottawa, I have visited all the major cities in the United States, and I was impressed with the fact that Canada is as far a tourist center as any in the world. This year we enjoyed a large increase last year in tourist business from the United States, and we are confident that we will have an even greater interest this year."

"I am particularly pleased to be directed to the Canadian Rockies, which is no doubt due to the fact that the Canadian Rockies have visited eastern Canada and the Maritimes."

The trip, which is the second

and last mod-

ernization of his tour, will

be a pleasure to him.

He has been invited to speak at

the opening of the new

lodge at Jasper Park Lodge.

He will be in London

until June 15.

Priceless Gems to Blaze Amid Ermine and Velvet As George VI Is Crowned

Black Prince Ruby Most Famous Of Jewels

LONDON, May 11.—The crown, described by a lyrical English writer as "history books with diamonds pasted at words," will be upon the head of King George VI at his coronation May 12.

The actual crowning will be with the crown of England, Sir Edward T. St. John, the heraldic return procession from Westminster Abbey to Buckingham Palace, the King will wear the Imperial Crown of State. It is far more beautiful, romantic and valuable than the other two.

The royal regalia and crown jewels are worth between \$25,000 and \$30,000 each, and cannot be bought, not considering their historical value.

Every king of England since 1662 has been crowned with St. Edward's crown, or with the order of the Garter. The 11th century original, of which the present crown is a copy, was not present replica was broken up and sold by the regime of Oliver Cromwell.

CROWN WEIGHS 5 POUNDS

The crown of gold, studded with diamonds, pearls, sapphires and emeralds. It weighs three pounds and cost \$180,000 to make.

Much more expensive is the crown of state, made of gold, containing 2,783 diamonds, 217 pearls, 17 sapphires, 11 emeralds and one ruby. One of these rubies, the Black Prince's ruby, is worth \$50,000.

Other crown jewels, the Star of Africa, cut from the famous Cullinan diamond, weighs 20 carats, and is the largest cut diamond in existence. The largest is the major portion of the Cullinan diamond, which was set in the top of the king's sceptre. Perhaps the Black Prince's ruby has the most history attached to it. It belonged to the King of Granada, killed by the English in 1492 for the sole purpose of getting the jewel. The Black Prince, eldest son of Edward III, took it from the King of Castile on the battle of Bosworth Field.

It was at the Battle of Agincourt and was won at Bosworth Field. It was sold for \$50 by a French Puritan, who listed it as "a large ball of ruby wrapped in paper, value 4." It was received by the English King and sent to the Tower of London by the adventurer Sir Edward Poynings. When Edward IV died, his son, Edward V, was born. The giant ruby was found in the pocket of a giant burglar.

After the king has put on the royal robe, the orb is placed in his right hand, the sword of state in his left, and the golden, studded sceptre in the middle, bordered with jewels and topped by a jewelled-headed cross. The king then receives the royal sceptre from the hands of the Archbishop of Canterbury with the words:

"Receive the royal sceptre, the emblem of kingly power and justice. Let it be seen that the gold of the sceptre is nearly 3 feet long, the gold plate of the orb is 18 inches in diameter, and the giant ruby was found in the pocket of a giant burglar."

After the king has put on the royal robe, the orb is placed in his right hand, the sword of state in his left, and the golden, studded sceptre in the middle, bordered with jewels and topped by a jewelled-headed cross. The king then receives the royal sceptre from the hands of the Archbishop of Canterbury with the words:

"Receive the royal sceptre, the emblem of kingly power and justice. Let it be seen that the gold of the sceptre is nearly 3 feet long, the gold plate of the orb is 18 inches in diameter, and the giant ruby was found in the pocket of a giant burglar."

INDIA CROWN MADE IN 1912

The king has still another crown, the Imperial Crown of India, which was outside the United Kingdom, from which the royal regalia have never reached. This crown of the royal crown was made in 1912 for King George V in New Delhi, and cost \$100,000 and contains 6,170 diamonds, 6 emeralds, 4 sapphires and 4 pearls.

Another famous royal crown is that of Queen Mary, made in 1911. It is the only crown which has three famous diamonds in it belonging to the state. These are the Koh-i-noor, the Hope and the two portions of the Cullinan diamond. The Cullinan, when found in 1905, weighed 312 carats.

The Koh-i-noor, believed to have been uncarved before the birth of Christ, is said to bring disaster to any man who wears it, but no harm to a woman.

Program Cover

Here is a reproduction of the cover of the official British coronation programme. The book will be sold for the benefit of the King George Jubilee trust, founded in 1935, to provide more and better facilities for the recreation and general welfare of the British race.

LYONS TO HEAD AUSSIE GROUP TO CORONATION

Popular Prime Minister and Former School Teacher Goes to London

LONDON, May 11.—Sir Robert Lyons, chief representative at the coronation of King George and Queen Elizabeth next month will be the Prime Minister of the Commonwealth who has been invited to attend. Lyons, head of the National Government of Australia, will be the first foreigner to such an important event. The Prince and his party will be entertained at a dinner given by Lyons for the last stage of their journey to London.

Australian singer in Gallipoli and France, receiving many decorations. He was returned to Coria in the interests of the Union Australian, which he founded in 1919, as a young treasurer of a number of members. Lyons is a former member of the Commonwealth Parliament in October, 1933.

Princess Yvonne, in Tasmania, his parents having settled after migration from Ireland. Lyons "taught school" for a good many years in Tasmania, where education costs were high. Lyons gave up teaching for his resignation and candidacy for the Tasmanian State House of Assembly.

He became treasurer in Tasmania's second Labor administration in 1932, and was a member of parliament in opposition for some years. He was called on to form a ministry. He was a member of the executive council of the state though his party was defeated in a subsequent election.

At the request of J. H. Scullin of the federal Labor party, Mr. Lyons remained the leader of the Tasmanian Labor party in 1932 and contested the federal seat in the House of Representatives. With the entry to office of the Federal Labor Government, he was again the responsible member of parliament. Lyons took over the duties of treasurer during the absence of ministers absent in England.

Mr. Lyons married Ethel Maud in 1919. She is a member of the navy service with the Tasmania education department, and they have six children. Mrs. Lyons is a fine platform speaker. She made quite an impression when she toured the United States recently, returning home from the Jubilee celebration of King George V in 1935.

Mr. Lyons has had his present office since 1931, and had great experience in public life, especially in finance and transport, minister for the interior and postmaster. Sir Edward is a year younger than his wife, and they have one son and one daughter at Moymore, N.S.W. They have a son and a daughter, both born in Brisbane 46 years ago. By profession a mining engineer, he served in the Great War with the

CORONATION

MODERN eyes are dazzled by the splendor of it. London is an enchanted City. The whole Universe is enthralled by the color and pomp that invest the Crowning of our King and Queen. Those jewelled Maharajas coming out of the East to pay homage to their Emperor. That vast, proud cavalcade from other dominions and territories of the far-flung Empire. Those princes and potentates from neighboring nations. Those emissaries from great republics. Those travelers from every country and clime. Distance and diversity disappear amid the glory of England's throne... Ecstatic peal of chimes. Fanfare of trumpets. The Golden Coach rolls over the cobbles. The venerable Abbey blazes with the coronets and regalia of Britain's centuries of coronations. In the solemn hush of the supreme moment stand those two whom destiny has cast into Earth's most majestic setting... and EATON'S joins with heart and voice as Canada shout with one accord: God Save the King!

Long May He Reign!
